

Name _____

Date _____

Missing numbers

Write in the missing numbers.

Answer Key

★

Missing numbers

Write in the missing numbers.

The worksheet contains seven cartoon snakes, each with a sequence of numbers on its body. Snake 1 is a striped snake with numbers 0 to 10. Snake 2 is a light-colored snake with numbers 3 to 10. Snake 3 is a light-colored snake with numbers 0 to 10. Snake 4 is a light-colored snake with numbers 8 to 0. Snake 5 is a light-colored snake with numbers 10 to 0. Snake 6 is a light-colored snake with numbers 10 to 0. Snake 7 is a light-colored snake with numbers 0 to 10.

For snakes 4, 5 and 6, make sure that children write 0 (zero) as the number nearest the tail and not 1. It is essential to encourage the use of the term *zero* and not *0* (as in *only*) or *nothing*. Have children look look at a number line if they have problems.
